

## SPARTAN SR3 Lumen (Dual Flash) - Strobe Flash + White LED flash + built-in viewer

Capture stunningly detailed pictures with the all-new SR3 Lumen. The innovative combination of Strobe (xenon) and White LED bulbs produces vibrant colour photos and videos day and night making identifying individual animals from each other a breeze. These produce amazing detail with reduced blurring compared to other nighttime footage thanks to this dual-flash system. The SR3 Lumen also packs more into each picture with 24 mega pixel, with **75° wide-angle lens** and a less than 2 sec recovery time meaning unlimited multi-shot / burst mode using the Strobe / Xenon flash - as long as the target is triggering the camera's PIR. This ground-breaking feature now offers unlimited, Strobe / Xenon flash quality images (no motion blur) in quick succession. Preliminary testing has produced 8 x Burst-mode Strobe / Xenon flash quality images in less than 10 seconds - something previously impossible to achieve from any previous camera trap model.

The SR3 Lumen is a rugged, palm-sized camera with a secure clasp, as well as a ring for a personal padlock, ensuring the camera is not easy to tamper with. It also features a built-in pitch-angle adjusting mount, so you no longer need to wedge sticks and twigs behind your camera to get the perfect angle on the tree. Additionally, it features a built-in, front-facing 2" LCD color screen so you can easily see where the camera is aiming during setup and what it will be taking footage of - as well as adjust and set menu settings. We're making sure you take out the guesswork of aiming a camera trap with these two great features.

**Spartan SR3 Lumen, can take clear colour night-time images & colour night-time video clips, Strobe (xenon) and White LED flash combination. The Lumen packs two different types of flash together for superior auto-sensing illumination to minimize 'white-out', over-exposure. The combination of nighttime videos & images and a wide-angle lens gives the ultimate advantage.**

### Model Number: SR3

**Resolution:** 3/8/24 Mega Pixel

**Trigger Speed:** 0.36 sec. (With Large 75 degree Field of View & Detection angle)

**Flash Types:** Auto-adjustable Strobe (photo's) + WHITE LED (colour video at night)\*  
Night-time Image illumination = Strobe flash, full colour  
Night-time Video illumination = WHITE LED flash, full colour

*\* The auto-adjustable flash power feature minimizes over exposed images and video clips by automatically detecting the distance the target is from the camera during each trigger and adjusting the flash power / strength accordingly.*

Viewing screen: Built-in 2" IPS LCD (480x360mm) front-facing display  
Video Resolution: 1080p (1920x1080) / 720p (1280 x 720) - with sound  
Video Length: 5s / 10s / 15s / 30s / 60s  
Trigger Intervals: 0s - 60min  
Trigger Types: Motion (PIR) / Timer (Time Lapse) / Work Day

Time-lapse Intervals: Off / 5m / 10m / 30m / 1h / 4h / 12h / 24h

PIR Sensitivity: Adjustable (High / Normal / Low / Off)

PIR Type: Multi-zone

FOV (Field of View): 75° wide angle

Image Imprint: date/time/temp/CI

Recovery Time: 2 sec - Unlimited Multi-shot / Burst Mode (see below)\*\*

*\*\* The very fast recovery time allows for unlimited multi-shot / burst mode using the Strobe / Xenon flash - as long as the target is triggering the camera's PIR. This ground-breaking feature now offers unlimited, Strobe / Xenon flash quality images (no motion blur) in quick succession. Preliminary testing has produced 8 x Burst-mode Strobe / Xenon flash quality images in 10 seconds - something previously impossible to achieve from any previous camera trap model.*

**Memory:** Micro-SD, up to 64 GB (not included)

**Battery:** 6 x AA 1.5 volt - (not included)

External Power: compatible with 12v DC SLA battery / solar panel (not included)

Mounting: Built-in metal pitch-angle mount + Python lock hole / Tripod thread / Mounting strap

**Padlock lockable:** Yes (Latch and padlock loop)

Operation Temp: -20°C ~ 60°C

Operation Humidity: 5% - 90%

Weight: 310g (without Bty)

Dimensions: 10.2cm x 9.9cm x 7cm

IP Rating: IP65
